EXPLOSION OF GAS.

DESTRUCTIVE WORK DONE IN A PENNSYLVANIA MINE.

SIXTEEN MINERS BURNED.

Several of the unfortunate men in a precarious condition and expected to die. The coroner's jury finds no one to blame for the accident—List of the victims.

POTTSVILLE, Pa., Aug. 11.—The disaster which occurred at the York Farm colliery on Saturday afternoon was far more serious than was reported. Sixteen miners were burned, several of whom are in a precarious condition. The following is a correct list of those injured:

John Corby. He expired in terrible agony nine hours after the explosion. He was a single man, and his home was at Oxford, N. J.

Robert Kelly, single, seriously; resided at Brooklyn.

James Miller, single, seriously; of Herdtown, N. J.

William Conly, married, seriously; of Mine Hill, N. J.

John Connors, seriously; of Mine Hill, New Jersey.

George Tierney, married; of Yorkville.

James Tydaback, of Yonkers, N. Y.

William Smith, of Pottsville.

Thomas Goldsworthy, married.

Joseph Robertson, married; of Mount Hope, Pa.

David Davis and son Thomas, of Pottsville.

Henry Zimmerman.

Scott Brubaker, of Minersville.

George Alexandra, Hungarian.

Charles Sower, of Yorkville.

The men were at work in the mine when there was an explosion from accumulated gas. The coroner's jury, after inspecting the scenes of the disaster in the mines and examining a number of witnesses, rendered the following verdict: "That John Corby came to his death by being burned at the York farm colliery of the Lehigh Coal company by an explosion of gas, and we find that all necessary precautions had been used and no blame is attached to anyone."

Other deaths are expected to follow, as some of the men are horribly burned.

NOVEL WEDDING.

The Queen of a Gypsy Camp Marries a Prominent Business Man.

HANOVER, Ind., Aug. 11.—A novel wedding took place yesterday afternoon in Bergandine's woods, west of this village, where a party of gypsies have been encamped for several days, the principals being one John Lynch, at one time a prominent butcher of Philadelphia, and Jennie Van Sicklen, a genuine nomad, who was born "on the road" in England nineteen years ago, and who was recently chosen, at Elyria, O., queen of the band with which she is now traveling.

The bride is a tall, superbly formed and handsome maiden, agreeable in manner and she commands the respect and obedience of her subjects, who number twenty-one men and women. Lynch, the groom, is an athlete as to stature and development, about twenty-eight years old, and is said to have met and fallen deeply in love with Miss Van Sicklen two years ago on her arrival at Philadelphia from the old country. He was so enamored that he gave up a good business and followed the Gypsy maiden to Elyria, the headquarters of a large number of these nomadic people, and joined the band with which she attached herself, thereby renouncing forever the more civilized life in which he had been living.

The pair were handsomely attired in genuine Gypsy costume, and the knot was tied by a Madison clergyman, who was expressly engaged to officiate on the occasion. A supper followed the ceremony, after which dancing and other sports were indulged in. Lynch and his queen bride will hereafter travel in a handsome canvas-covered wagon, which is elegantly furnished inside with a luxuriant bed, hidden by velvet curtains and canopy, bureaus, washstand, mirror, easy chairs, etc., which outfit was presented to Miss Van Sicklen by her subjects at the time she was chosen queen.

IN FOR LIFE.

W. J. Elliott Taken from Jail to the Penitentiary.

COLUMBUS, O., Aug. 11.—W. J. Elliott was removed from the county jail to the state prison at 11 a. m. yesterday. Sheriff Custer, accompanied by two deputies, drove him over in a surrey wagon. They took by-streets, and Elliott was not handcuffed. The party attracted no attention, and there was an absence of excitement.

Reporters were not permitted to accompany the party further than the guard room, and he was searched, stripped, bathed and examined, according to the rules, in Deputy Warden Porter's private office. When asked what employment Elliott would be given, the deputy said: "That depends upon the result of the examination. If physically strong he will be put at manual labor of some kind."

Foul Play Feared.

CHICAGO, Aug. 11.—Harry Smith, a young man who has been leading a rather fast life in the city for a few weeks and who was known to carry a large sum of money, went out onto the lake Friday morning with some unknown companions. As his friends since then have seen nothing of him they very much fear that he has met with foul play. Smith is about twenty-two years of age, and came here a few weeks ago from Pittsburgh, where it is said he was the son of wealthy parents.

TEN DAY PERIL.

Narrow Escape of Italian Immigrants from a Threatening Fate.

NEW YORK, Aug. 11.—The steamship Cachemiere arrived in this port last Friday evening with 160 Italian steerage passengers on board. It was learned yesterday for the first time that for ten of the eighteen days of the Cachemiere's voyage the vessel and all on board of her were in imminent and continuous danger of the gravest character.

When the steamer was but one day out from Marseilles it was reported to the captain that the soft coal in the bunkers was on fire. He at once gave orders that the strictest secrecy should be observed, as, if the news spread among the passengers, it would be impossible to avert a panic. Immediate steps were taken to quench the fire, but it had already gained serious headway. The pumps were put to work and heavy streams of water were poured upon the piles of coal and upon the deck above it. This was kept up day and night for ten days, and not till the end of that time was the fire entirely extinguished. The captain and crew were on almost continuous duty during that time and were completely worn out. During the whole time none of the passengers had any suspicion of the danger in which they stood, nor did they learn of it until port had been reached.

CUT IN TWO.

A Brakeman Struck by a Bridge, Falls Under the Cars.

CINCINNATI, Aug. 11.—One of the most terrible deaths imaginable was that of Frank Rassler, a Cincinnati, Washington and Baltimore brakeman. He met with it shortly before 5 o'clock, when a train of thirty-three cars pulled out of the yards and went spinning westward.

Rassler, with the rest of the crew, took his station on top of the cars, his place being at the forward end of the train on the front car. He was standing with his face toward the engine, which was going at a lively rate. As the train neared the Fifth street bridge his back was turned to it, and in a moment his head was struck by the stringers under the bridge, felling him. He dropped to the roof of the car unconscious, and rolled off, his body falling across the track in front of the second car.

The accident was not noticed until the entire string of cars passed over his prostrate body at the abdomen, cutting him square in half. Patrol 4 was called and the severed body was taken to the morgue. Rassler was 31, married, and lived with his family on State avenue, near Gest street.

FATAL FIGHT.

A Paroled Prisoner Meets Death in a Drunken Quarrel.

CINCINNATI, Aug. 11.—A fight which will result in another murder occurred at 575 Elm street shortly after 2 o'clock Monday afternoon. Peter Dornbecker lives with his wife in the rear of the second story at that number. Adam Strack, of 21 Mary street, his brother-in-law, with his wife, called on Mrs. Dornbecker Monday.

While there Dornbecker came in drunk. He was accompanied by a second-hand man to whom he wanted to sell the furniture. An argument followed and Dornbecker assaulted Strack with a poker, inflicting four severe scalp wounds. Strack grabbed a big knife and stabbed Dornbecker in the groin.

Some one ran for the patrol wagon and both men were taken to the hospital. Dornbecker is out of the penitentiary on parole. He was sent there five years ago for killing a man named Becker, by shooting him off the Findlay street bridge.

Russian Crops.

ST. PETERSBURG, Aug. 11.—The grave situation created by the failure of the crops in Russia is causing the greatest apprehension in all circles. The Granddashin declares that the local administrations will be unable to make provision for the inhabitants of the distressed provinces by drawing upon the surplus of other provinces if speculators are allowed to export corn or if the artificial rise in the price of corn is not checked. The paper demands that the government immediately place a heavy export duty on rye. The Financial Messenger declares that it will be almost impossible for Russia to export corn this year.

Explosion on Board a Steamer.

ST. LOUIS, Aug. 11.—An explosion of one of the steam pipes on the steamer Idlewild occurred last night as the boat was nearing St. Genevieve. Sam Jackson, a colored fireman, and another negro, also a fireman, whose name is unknown, were blown to atoms. Charles Adams and Marshal Carter, deck hands, and Dan Giebel, a colored passenger, were seriously injured, the two former probably fatally. They were brought to the city by the steamer Crystal City and sent to the Marine hospital. The cause of the explosion is unknown.

Died of a War Wound.

DAYTON, O., Aug. 11.—Dr. J. B. Beamer, a worthy citizen of Fletcher, died Friday and was buried yesterday afternoon. Dr. Beamer was born at Fremont, Clark county, fifty-two years ago, and served gallantly in Company E, Seventy-first Ohio volunteer infantry. He was wounded in the right leg at Shiloh, and he never recovered from the wound.

Eloped with a Sport.

CHICAGO, Aug. 11.—Miss Louise Gutman, the sixteen-year-old daughter of a wealthy and aristocratic widow of St. Louis, has eloped with a follower of the races who goes by many aliases, but whose correct name is supposed to be John Murphy.

Ball Club Disbands.

MINNEAPOLIS, Aug. 11.—The Minneapolis base ball club has been disbanded.

President Hach released the players

yesterday morning. Poor business and hard luck generally is given as the cause of his action.

CYCLONE IN IOWA.

A Vast Amount of Property Destroyed.

PANIC AT A CAMP MEETING.

The Tabernacle Destroyed by Falling Trees, and a Few People Injured Though None Killed—Crops Greatly Injured.

LEON, Ia., Aug. 11.—About half past 11 Sunday morning a cyclone swept over this part of Decatur county. The storm lasted an hour and a half and caused great damage. In this town the streets and yards were littered with fallen trees, and in many instances the streets were absolutely impassable. The roofs of the opera house and school house were unroofed, and two houses in the southern part of the city were completely demolished.

Fences, sidewalks and outhouses were lifted up bodily and carried away by the wind. The falling trees wrecked the telegraph, telephone and electric light wires, and the town was in darkness Sunday. The best citizens of the place were attending a camp meeting at Camp Davis City, ten miles distant, and the confusion and panic were indescribable. The camp meeting is being held in a grove on the banks of the Grand river. Fully 8,000 people were in attendance.

Huge forest trees swayed and fell crashing to earth, and broken branches were hurled by the wind through the crowded assemblage with terrific force. The tabernacle was crushed under the weight of two giant oaks and all seats and stands demolished. Several cottages were also damaged, some being unroofed and others crushed by falling trees. In spite of the suddenness and force of the gale, however, no one was killed and only a few slightly bruised by flying debris.

It is feared that when reports are received from the country districts they will bring news of loss of life, as the sweep of the wind along the open prairie must have been irresistible. Such news as has been received is to the effect that the damage to crops is heavy. Corn has been beaten to earth, stacks blown away and fences demolished. The loss will certainly reach up in the thousands.

TUESDAY, AUGUST 11, 1891.

THE Republicans made a net gain of only one member of the Legislature in the late contest. And they were going to carry the State, before the election.

TUE Cincinnati Volksfreund, an influential German daily which bitterly opposed Campbell's renomination, has come out in his support. Democratic prospects in the Buckeye State are growing brighter right along.

ACCORDING to Dun's last weekly report, it is the foreign demand for our grain that is now relied upon to stimulate our home industries. What would become of our home industries if it were not for the farmers and that foreign market?

SEVEN convicts were paroled from the penitentiary last Saturday and six of them were serving sentences for murder or manslaughter. It's a singular fact that the Commissioners always select for parole men whose hands are stained with human blood.

"THE Kansas idea prevailed somewhat in the Kentucky election," says the New York Advertiser. Yes, somewhat, but it didn't cut much of a figure. The People's party carried only two counties in the State. It fell far short of coming up to the ante-election claims of its leaders.

IT is now a settled fact that the political complexion of the next Legislature will be as strongly Democratic as any of the past. The House will stand Democrats 70; Republicans 16; People's party 9; Independent Democrats 5. There is no danger of the combined opposition worrying the Democrats.

IT is a significant fact that several hitherto Republican strongholds in the mountains of Kentucky were carried by the Democrats at the late election. And yet, according to the Lexington Leader, the Republicans are satisfied with the result of the election. They mustn't be very hard to please.

PORTSMOUTH, N. H., had six Republican and three Democratic Aldermen, but at her municipal election last week the Democrats made a clean sweep of the offices. Their candidate for Mayor polled the largest vote ever given a Mayor of the city. This straw shows how the drift is in New Hampshire.

THE expenses of the Federal Government for the month of July exceeded the receipts by upwards of \$5,000,000. At this rate, President Harrison will soon have a big deficit on his hands. He stated at the start that it was easier to manage a surplus than a deficit, but the surplus is gone and the deficit is growing larger. He doesn't seem to be much of a success at managing either a surplus or a deficit.

IF the price of wool in this country, had advanced under the McKinley bill, it would have been credited to Mr. McKinley and elected him. As the price of American wool has declined without any decline in price here of imported wool, the Republican editors are apologizing to their readers and giving them explanations which the Tariff Mule's heels kick in to strings.—New York World.

Huntington Democrats.

The Democrats of Brown County held a primary last Saturday to express their choice for Common Pleas Judge, Representative, Treasurer, Commissioner, Surveyor and Infirmary Director. Following is the official result in Huntington Township:

For Common Pleas Judge—R. E. Campbell, 152; John R. Moore, 48; D. V. Pearson, 13; John P. Biehn, 52.

For Representative—Eli E. Lindsay, 3; R. P. Fisher, 96; Robert Cochran, 72; E. M. Fitch, 69.

For Treasurer—E. A. Tissandier, 265. For Commissioner—H. F. Pindell, 263. For Surveyor—C. H. Gore, 265. For Infirmary Director—Ellis Penny, 4; W. H. Kennedy, 6; R. Waters, 255.

Weekly Crop Bulletin.

Following is the weekly crop bulletin of the Kentucky State Weather Service, in co-operation with the United States Weather Bureau, for the week ending August 8: "The weather of the past week was all that could be desired for the progress of all crops. The temperature was slightly below the normal, and the amount of sunshine received about the average; the precipitation showed a very large excess. Frequent and very heavy showers were general throughout the State on the 2nd and 3rd. The northern counties were visited by the heaviest rains in years. At Louisville on the evening of the 2nd, 2.81 inches fell in the space of four hours, and at Frankfort, on the same day, 2.40 inches was reported in about the same time. Those heavy rains have greatly improved all growing crops, particularly corn, which was beginning to suffer from the effects of the protracted dry spell. It is safe to say now that a very large crop is assured in most parts of the State. The tobacco outlook is not so favorable, though the prospect in the southern and western counties appears to be better than in other portions of the State. From the northern sections come reports of shortage, as the result of damage to the plants earlier in the season and from reduced acreage. Hemp is reported to be in a generally excellent condition. Late garden crops will be good, especially potatoes, which are reported to be very fine. Pastures and meadows show a great improvement since the recent rains. Fruits are abundant and very fine, except in the northern parts of the State, where there is complaint of peaches being of poor quality."

Confirmed.

The favorable impression produced on the first appearance of the agreeable liquid fruit remedy Syrup of Figs a few years ago has been more than confirmed by the pleasant experience of all who have used it, and the success of the proprietors and manufacturers of the California Fig Syrup Company.

Ruggles' Camp Meeting.

Correspondence of the BULLETIN.

RUGGLES' CAMP GROUNDS, August 7, 1891. The bibernacle last night was well filled, and great interest was manifested throughout the service. Rev. Stratton, of Tollesboro, preached from Luke, first chapter, fifteenth verse: "He shall be great in the sight of the Lord." At the close of this sermon five persons came to the altar for prayer, and two young men professed conversion. The people lingered long after the sermon to sing and shake hands in the good old Methodist style.

At 6 o'clock this morning family prayer meeting was held. This is a very enjoyable service.

At 10:30 o'clock Rev. Pursell preached from the ninth chapter of Luke.

At 2 o'clock, children's meeting. This is always well attended and interesting, and the children are already sorrowing and regretting because they will have to part with their dearly beloved Brother Young.

Mr. James Lynch, who had erected a tent, invited Brother Young to hold a prayer meeting there. Brother Young and Dr. Hanford accepted this invitation and got the young men together and read a chapter to them, and in few words gave them some excellent advice. It was an impressive picture, and spoke well of these young men. It also speaks well of the Ruggles camp grounds, for while the young people and all others have plenty of opportunity for recreation and pleasant enjoyment, yet it makes an impression for good upon all who attend, and each one regrets when the time comes for them to leave these lovely grounds.

The meeting at 8 o'clock was one of the best that we have had. Rev. Cheek, the blind preacher, preached from Mark, third chapter and seventh verse. He was listened to with rapt attention, for it was a warm gospel sermon he gave. At the close six persons came to the altar, making twenty-one up to-night, and the interest is still increasing.

Many of those who came in so late are now regretting that they did not come earlier and enjoy it all. Next year will see people camping here who never thought of doing so before.

RUGGLES' CAMP GROUNDS, August 10, 1891. To-day closes one of the most successful meetings that this association has held. The best of order prevailed throughout and not a thing occurred to mar the pleasure of anyone.

We had 323 regular tenters during the meeting, and nearly all engaged their cottages again for next year.

The number who attended on Sunday was estimated at 4,500.

Dr. Robinson preached two grand sermons, and the services throughout were such as would inspire every Christian heart to greater diligence and a purer Christian life. Every one of those who tented on the grounds expressed regret because the meeting was closed, and would gladly have stayed another week. May God still continue to bless Ruggles' camp meeting. J. W.

Parks Hill.

Correspondence of BULLETIN.

DEERING CAMP GROUNDS, August 9, 1891.

Large delegations of Lexingtonians, Parisians, Millersburgers, Maysvilleans and Maysvilleians, and crowds from the points thereto adjacent, took in the delightful shades of Parks' Hill camp meeting to-day.

The large auditorium was well filled. Good music preceded the discourse by Rev. Dr. Howard Henderson, which was founded on this text: "If I be lifted up I will draw all men unto me."

The Doctor drew largely on his classical belles-lettres literature, his historical and biblical resources, and made a capital sermon of one and a half hours in length. The immense audience, although the heat was oppressive, never tired, but gave close and appreciative attention.

THE GROWERS' WAREHOUSE

It Threatens to Break Up the Exchange at Louisville—Doing a Fine Business.

The warehouse established at Louisville last spring by the tobacco growers of Kentucky has been doing business four months, and the manager states in the Louisville Times that the net profits amount to 25 per cent. of the paid-up capital stock, which is \$100,000.

The Times says: "It seems that, contrary to the predictions of the majority of the tobacco men, the Growers' Warehouse is proving itself a thorn in the side of the Tobacco Exchange. Trouble in the ranks of the exchange appears imminent, although there is little or no excitement noticeable on the breaks."

Rumors of dissensions among the members of the exchange became current a month ago, when Robert Herr, at a meeting, introduced a resolution expunging that section of the exchange by-laws which provides that the seller shall be charged \$2 per hogshead, thus leaving the rate discretionary with the warehousemen. There was a big kick at the time, but the matter was referred to the proper committee for consideration.

"At a meeting of the Exchange last week the committee reported that it had determined to neither decide for or against the resolution. The whole matter was in this way again thrown upon the Exchange as a whole. Since then no meeting has been held, but there has been some talking done. So vigorous was some of this talk that the rumor of the threatened dissolution of the Exchange was given some color."

"The whole trouble all along has been that the Exchange has been charging the sellers \$2 and 1 per cent. and ten pounds off for sample, while the Growers' Warehouse has charged its sellers but \$1.50 straight, with nothing off for samples.

The manager of the grower's warehouse said to the Times: "We are not paying any attention to the talk of the Exchange people. We are pursuing the even tenor of our way and are making money by so doing. Our receipts are large. We have now 650 hogsheads in our house, and our prospects could not be better. When the new crop comes in you will find that we will rise head and shoulders above the Exchange. The farmer can save \$25 on each ten hogsheads by dealing with us."

OUTRAGES IN CHINA.

An Imperial Decree Issued on the Subject

RECEIVED IN WASHINGTON.

How Foreign Missionaries Are Treated, and the Reason Two of Our Government War Vessels Were Sent to the Chinese Waters — Various Other Washington News.

WASHINGTON, Aug. 11.—The state department has received a copy of the imperial decree issued by the Emperor of China concerning the outrages on foreign missionaries in that country which have caused the navy department to order two additional vessels to Chinese waters. The decree is as follows:

"The Tsung Li Yamen (or council of ministers) has memorialized us in regard to the missionary cases that have occurred in the various provinces, asking that we issue stringent instructions to the governor general and governors to lose no time in devising means for the settlement thereof. It is represented by the Yamen that in the month of May the missionary premises (Catholic) at Winku, in the province of Arh, were fired and destroyed by a mob of outlaws.

"At Tan Yang Huen in the province of Kiang Su, and at Wusuch, in the province of Hupeh, similar outrages have been committed on missionary establishments there, and it is now necessary that the miscreants should be arrested and unrelenting measures taken in good time to provide against further outrages of this kind. The propagation of Christianity by foreigners is provided for by treaty, and imperial decrees have been issued to the provincial authorities to protect the missionaries from violence.

"For years peace and quiet have prevailed between Chinese and foreigners. How is it that recently there have been several missionary establishments burnt out and destroyed and all happening at about the same time. This is decidedly strange and incredible. It is evident that among the rioters there are some powerful outlaws, whose object is to secretly contrive a plan to fan discontent among the people by circulating false rumors and causing them to become agitated and excited and then to avail themselves of the opportunity to rob and plunder, and peaceable and law-abiding persons are enticed and led to join them, resulting in a tremendous uprising.

"If strenuous action is not taken to punish the miscreants how can the majesty and dignity of the law be maintained and peace and quiet prevail. Let the governors general and governors of the Liang Kiang, Hu Kwang, Kiang Su, Aufni and Hupeh issue without delay orders to the civil and military officers under their respective jurisdictions to cause the arrest of the leaders of the riots, try them, and inflict capital punishment upon them as a warning and example to others in the future. The doctrine of Christianity has for its purpose the teaching of men to be good.

"Chinese converts are subjects of China and are amenable to the local authorities. Peace and quiet should reign among the Chinese and missionaries. But there are reckless fellows who fabricate stories that have no foundation in fact, for the purpose of creating trouble. Villains of this class are not few in number and are to be found everywhere. Let the Tartar generals, governors general and governors issue proclamations warning the people not to listen to idle rumors or false reports which lead to trouble.

"Should any person secretly post placards containing false rumors with a view to beguile the minds of the people, strenuous steps must be taken to cause his arrest and vigorous punishment meted out to him. The local authorities must protect the lives and property of foreign merchants and missionaries, and prevent bad characters from doing them injury. Should it transpire that the measures taken to protect them have not been adequate and trouble in consequence ensues, the names of those officers that have been truly negligent are to be reported to us for degradation.

"In the matter of all missionary cases that are still pending, let the Tartar generals, governors general and governors cause a speedy settlement of them. They must not listen to the representations of their subordinates that the cases are difficult to settle and thus cause delay, to the end that a settlement of them may be effected. Let this decree be universally promulgated for the information of the people."

Peruvian Newspapers.

WASHINGTON, Aug. 11.—The newspapers of Lima, Peru, contain elaborate accounts of the removal of the remains of Francisco Pizarro, who lead the conquest of Peru, from a vault under the altar of the cathedral at Lima to the chapel of the viceroys in the same building. The remains were subjected to a careful examination and the body was found to be admirably preserved, although it is 330 years since Pizarro died.

Costa Rica Goods.

WASHINGTON, Aug. 11.—The total value of goods imported into Costa Rica during 1890, according to advices received by the bureau of American republics, was \$8,615,410. The importations from the United States amounted to \$2,255,138.

ROW AT A PICNIC.
How the Colored Cincinnati Carve Each Other Up.

CINCINNATI, Aug. 11.—The Jolly Four, a club composed of some of Cincinnati's colored people, held a picnic at Hunt's Grove, a summer resort ten miles from the city yesterday. During the afternoon, between 1 and 2 o'clock, a number of bloody fights occurred. Razors, revolvers and pocketknives were very plentiful.

Jim Chapman, the city dog catcher, and a very tough man, got into a quarrel with Hiram Hendricks, who is also a very tough man, and boasts of having killed two men. Chapman was struck in the head with a brick thrown by Hendricks, but not seriously injured. The brick, however, was broken into a dozen pieces by coming into contact with Chapman's head. Friends soon came between the two men and they were separated before further injury was inflicted.
